EDITORIAL COMMENTS

Scientific progress requires the exchange and discussion of data and ideas. The Faculty of Biosciences, Nnamdi Azikiwe University, Awka had for sometime nursed ambition of providing a platform dedicated to presenting the results of scientific research both within and outside the country.

This maiden edition of “The Bioscientist” contains a collection of articles which have undergone rigorous peer review and these articles cover a wide range of researches in the Biosciences. The review process lays a high premium on whether the research has been sufficiently well conceived and executed.

This maiden edition is indeed a dream come true!

The Editor-in-Chief and The Editorial Board thank all who have contributed to the successful launch of this maiden issue.
